The necklace in the style of romance

Preciosa Ornela presents the two-hole PRECIOSA Twin™ seed bead. PRECIOSA Twin™, a new type of seed bead from the PRECIOSA Traditional Czech Beads brand, offers much more creativity and possibilities for use. Here are the instructions for making necklace and bracelet in the style of romance. The romantic gift in gentle colors appears like fine glass lace.

Thanks to the new two-hole seed beads PRECIOSA Twin™ you will find that you can create a relatively complicated décor using a simple stringing technique. We hope that you have many creative ideas when working with the new PRECIOSA Twin™ seed bead, as well as with all the other types of Czech PRECIOSA seed beads :o).
