### EXPERT TIP #1

Plan your design by arranging the crystals in a festive pattern or scattering them randomly.

Use fabric chalk or a marker to mark the placement.

### EXPERT TIP #2

Sew through one hole of the crystal setting, then down through the opposite, repeating 3-4 times to secure. Reinforce by sewing any extra holes, and alternate between crystal shapes and colors for balance.

### EXPERT TIP #3

Check that all crystals are secure, with no gaps, and ensure the sweater stretches comfortably without pulling them out of place.
