

# PRECIOSA

FOR CREATORS

## *Design to Shine!*

### CRYSTALLIZED SHADES

#### PICTURED PRODUCTS:

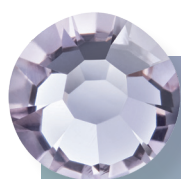

**Chaton Rose MAXIMA** / Sizes ss6-ss20

**Color / Coating:**  
Mesmera / Mesmera AB

#### EXPERT TIP #1

Wipe the area of the sunglasses where you'll be applying the crystals using a bit of rubbing alcohol to remove any oils or dust. Let dry completely. Before gluing, lay out your crystals on the sunglasses to test your design.

#### EXPERT TIP #2

Add a small dot of glue to the frame, then use tweezers or wax pencil to carefully place each crystal and press gently to secure it. Mix sizes for a dynamic, pavé effect.

#### EXPERT TIP #3

Once your design is finished, allow the sunglasses to dry completely. We recommend letting them cure overnight for the best hold.
