DD = DiamonDuo™ Bead
P = Pellet Bead
SB = Seed Bead

DiamonDuo™ & Pellet Bracelet

Tutorial by Růžena Mikulová

1

String 6 DD beads using the upper holes.

2

Loop back and re-thread the same beads, through the same holes, going in the same direction.

3

Beads will form a ring when pulled to tighten, Turn the thread's direction 180 degrees.

4

Re-enter the outer hole of the same DD bead.

5

Thread a P bead, and continue into the adjacent DD bead, using the outer hole.

6

Going counter-clockwise, continue around the shape, adding a P between each DD. Re-thread these same holes a second time.

7

Add 3 SB between each P, working your way around, moving counter-clockwise.

8

Make 4 of these shapes for an average sized bracelet.

DiamonDuo™ & Pellet Bracelet

Tutorial by Růžena Mikulová

DD = DiamonDuo™ Bead

P = Pellet Bead

SB = Seed Bead

9

Add a SB, thread a wire guardian, add another SB, and go back into the SB. thread around the perimeter of the shape to the other side.

10

Exit through a SB, thread one P, SB, DD (through its upper hole), SB, P, SB. Loop through center SB of additional new shape, prepared in the same way as steps 1-8.

11

Loop back towards original shape, add SB, P, SB, DD (through lower hole).

12

Pull to tighten, and thread an additional SB, P, SB, Pass through center SB. Continue by looping back towards the newer shape again.

13

Re-thread adjacent SB, P, SB. Add 3 SB, continuing back towards new shape again.

14

Re-thread SB, P, SB. Tie half-hitch knot and clip excess thread.

15

Add pearl, close eyepin around wire guard.

16

Add lobster claw to other end of eyepin. Close eyepin around lobster claw,
