1) Insert a stop bead to begin your work.

Place 3 SB11s in the left hole and exit through the second Delos, right hole, point down.

Place 3 SB11s in the left hole and exit through the third Delos, right hole, point up.

Repeat these steps to place a total of 53 Delos.

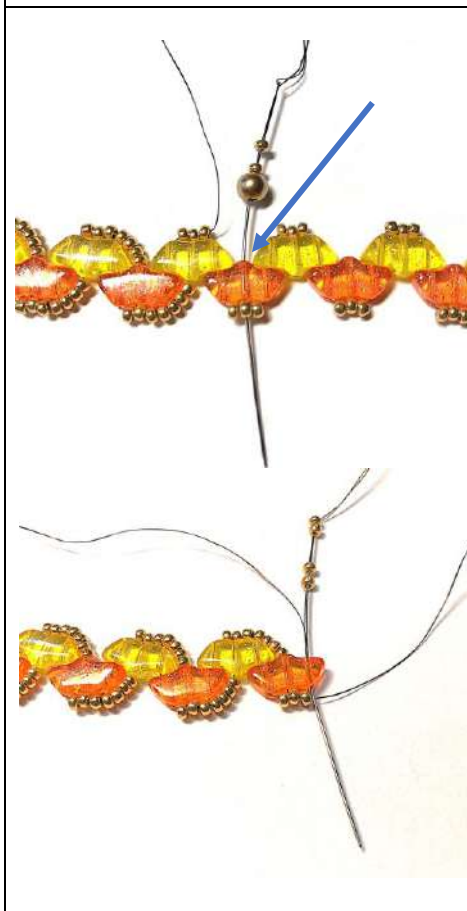

On the last Delos, insert 5 SB11s to form a loop and go to exit HERE (arrow) after the 3rd SB11 Row 1.

2) Place 4 SB11s in the center hole of Delos Row 2 (red arrow).

Exit through the 3rd SB11 of Row 2 and place 4 SB11s in the center hole of Delos Row 1 (green arrow).

Continue in this way until you reach the eighth Delos HERE (blue arrow).

3) Insert 2 SB11s and 1 RB4 into the center hole of Delos Row 1 and exit HERE (arrow).

Continue with 2 SB11s and 1 RB4 on all Delos up to and including the 19th Delos Row 1.

Then finish with 4 SB11s in the central hole of the 8 remaining Delos.

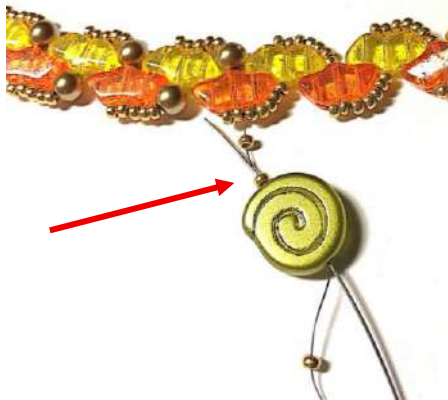

On the last Delos, remove the starting stop bead, place 4 SB11s around the right hole, then go back up through the four seed beads to tie knots with the two threads.

After the knots, insert 5 SB11s onto the needle and reinforce again to form a buttonhole as in step 1.

4) Here is the result (red arrow).

Exit through the 5th Delos Row 1 (blu arrow) and exit through the 5 SB11s.

Insert 2 SB11s, 1 Snail and 1 SB11.
Pass through the Snail and the SB11 (red arrow).

5) Insert 1 SB11 through the SB11 HERE (arrow).

Insert 1 B3 through RB4 and the 3 SB11s HERE (arrow). Repeat the step 4 to place a total of 19 Snails.

6) Once you've inserted the last Snail, go up to Delos Row 2 (red arrow).

Pass through the two SB11s and the RB4 to start again in the opposite direction.

Insert a total of 18 B3s between each Delos group.

Attach the two pieces of chain, the jump rings, and the clasp of your choice.

The "*Farandole*" necklace is complete.
