Necklace Tutorial « K'Rystal » © par PUCA®

Made by Puca

Puca

Materiale :

- 314 Konos® par Puca®
- 17 Baros® par Puca®
- Seed Beads 15/0 (SB15), 11/0 (SB11), 8/0 (SB8)
- 2 Worked cone beads 8 mm x 6 mm **(1)**
- 1 Screw-on oval clasp **(2)**
- 1 Charm **(3)**
- 8 Metal Worked beads 4 x 3 mm **(4)**
- 1 Spacer cap tab 20 x 12 mm **(5)**
- 8 Jump Rings 4mm ⌀
- 1 Chain fantasy da 50 cm
- 1 Fine Chain 24 cm
- 2 Lobsters Clasp
- Brass crimp beads, Crimp beads and wire guardian Bar
- Fireline 0.12 e 0.20

1) Insert 1 brass crimp bead, 1 wire guardian on the thicker wire the 0.20 for about 1,60 m

2) Pinch the brass crimp bead and cover it with the crimp beads

3) Here is the result 😊

4) Insert the worked cone bead

5) Insert 2 Konos e 1 SB15

6) Repeat step 5 with the Konos, 15 times

7) Insert 1 metal worked bead

8) Do steps 5 and 7 nine times in all

At the end repeat steps 1 to 4

10) Place the screw-on oval clasp inside the wire guardians. You have finished the first element

11) For the second element, insert on 0.12 wire 1 Baros, 1 Konos, 1 SB15, 1 SB8, 1 SB15

12) Switch back to the Baros and insert 1 Konos, 1 SB15, 1 SB11, 1 SB15, 1 Konos, 1 Baros, 1 Konos

13) Continue like this and insert 1 SB15, 1 SB11, 1 SB15, 1 Konos, 1 Baros, 1 Konos. So for the 17 Baros

14) At the end insert 1 SB15, 1 SB8, 1 SB15 and reinforce by passing through all beads again

15) Insert the jump rings into the R8s and the chain. I put 12 cm of chain on each side

16) Insert the jump rings and the lobster clasp. The second element is finished.

17) For the third element, insert a fancy chain with a charm in the middle

18) Insert the lobster clasp with the jump rings

19) Then place the spacer cap tab on the first element.
Congratulations !
You have finished the necklace 😊

20) Another color 😊
Frost Jade 😊

Happy beading !
Thank you for respecting my work 😊
