## Necklace & Bracelet Pattern

featuring the

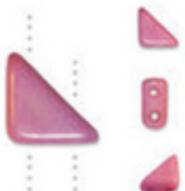

**TANGO™**  
Bead

**Parallelogram  
Configuration  
Used in Design**

### Materials Needed:

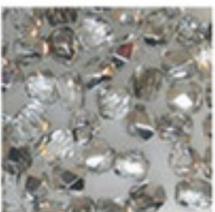

**TANGO™ BEAD 2-HOLE  
6MM CHALK LIGHT ROSE -  
50 GRAM BAG (APX 325  
PCS)**  
PRODUCT#: TG/CW14494/6

**10/0 DARK RED OPAQUE  
LUSTER CZECH SEED BEADS**  
- HK: 12 STRINGS OF 20  
INCH (APX 42G)  
PRODUCT#: HSB/98210/10/0

**6X16MM LOBSTER CLAW  
W/RING STERLING SILVER  
.925 10PCS**  
PRODUCT#: SSCL3100/16

**2TINY™ 2MM CRYSTAL  
SILVER FIRE POLISH  
LOOSE (PRICED PER 100)**  
PRODUCT#: FP/27001/2

**NEW**

**BEADALON WILDFIRE .006  
INCH FROST 20YD**  
PRODUCT#: 161U-004

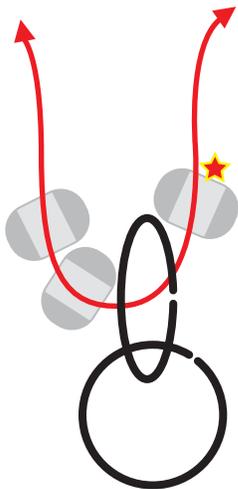

**BEADALON JUMP RING  
6MM SILVER PLATED  
50PCS**  
PRODUCT#: 314B-005

# Step 1

## Create Closure

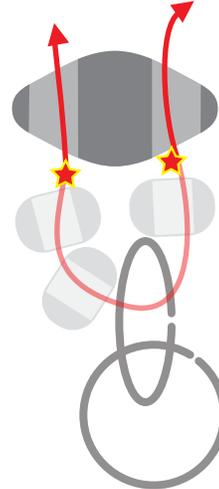

Thread 1 needle to each end of a 29" length of thread. With one of the needles thread a seed bead (B), a jump ring, and 2 additional seed beads (B). Attach a larger jump ring to the smaller jump ring.

# Step 2

## Add SuperDuo

With each end of thread, pass through the 2 holes of a SuperDuo (C) going the same direction.

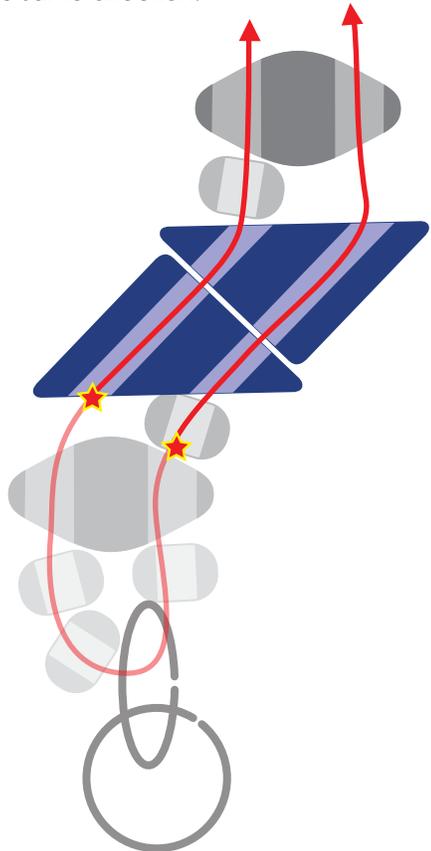

-  Entry Point
-  Knot
-  Thread's Direction
-  = Tango™ Bead (A)
-  = seed bead (B)
-  = SuperDuo (C)
-  = 2 Tiny™ FP Bead (D)

# Step 3

## Add Tango™ Parallelogram

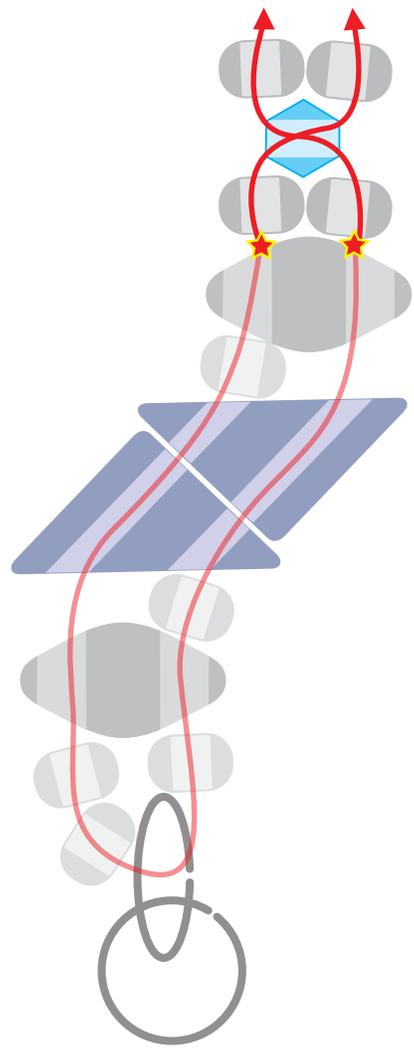

Using the right thread, pass through a seed bead (B). Configure 2 Tangos™ (A) so that the holes align, and form a parallelogram shape, as shown. Using both threads, pass the needles through the holes of both Tangos™ (A), so that the two lengths are traveling in the same direction. With the left thread, add a seed bead (B). With each end of thread, pass through the 2 holes of a SuperDuo (C) going the same direction.

# Step 4

## Add Seed Bead Cluster

Thread a seed bead (B) with each length of thread. Pass both threads through the same 2 Tiny™ FP Bead (D), travelling in opposite directions. Pull both threads to tighten. Thread an additional 2 seed beads (B) with each length of thread.

# Repeat As Needed

## Repeat Steps 2-4 To Desired Length

Repeat Steps 2-4 until you have the desired length for the necklace. Standard necklace length is 18".

# Step 5

## Close Necklace

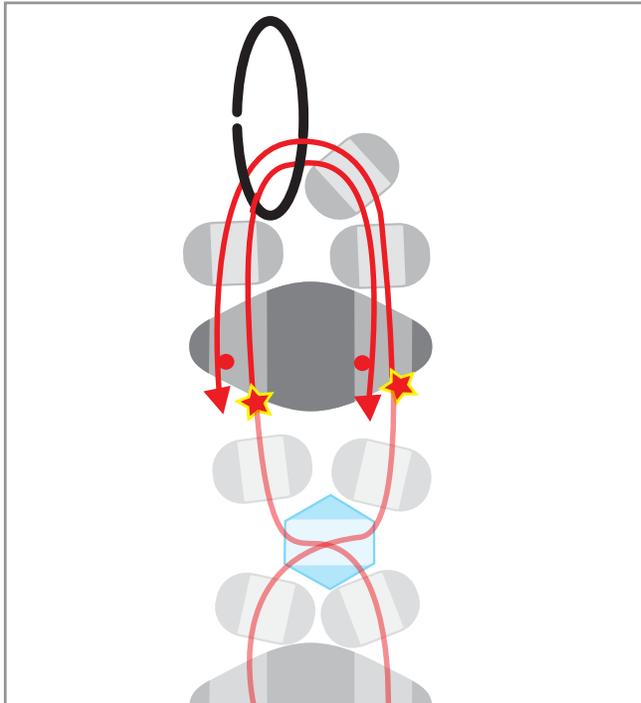

Thread a final SuperDuo (C) with both lengths; threading the right length through the right hole, the left length through the left hole.

Using the right thread, add 2 seed beads (B), a small jump ring, and another seed bead (B).  
Re-enter the final SuperDuo (C) through the left hole.

Using the left thread, pass through the seed bead (B) just added, the small jump ring, and the 2 seed beads (B).  
Re-enter the final SuperDuo (C) through the right hole.

Knot each length of thread, dot both knots with clear glue, and tuck both inside the final Super Duo (C).

-  Entry Point
-  Knot
-  Thread's Direction
-  = Tango™ Bead (A)
-  = seed bead (B)
-  = SuperDuo (C)
-  = 2 Tiny™ FP Bead (D)

# Step 6

## Attach Clasp

Using pliers, add a larger jump ring to the smaller jump ring.  
Attach a lobster claw to this jump ring for a closure to the necklace.
