83500/21402; ivory; 33 - 39x

- a 0.30 mm nylon line; scissors; a ruler

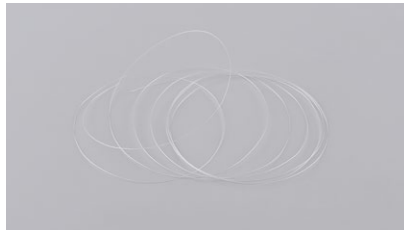

**Difficulty:** ○●●●●

**Technique:** knotting

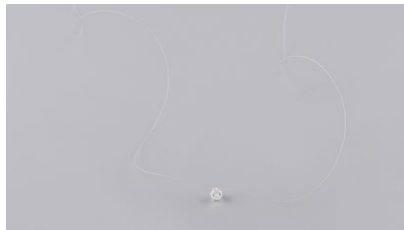

**Procedure:**

You can use this simple technique to tie any material. Surfaces with a central hole or a hole near the edge of the bead or seed bead are the most advantageous. Try decorating a floral bouquet or create a decoration.

**Step 1:**  
Cut off about 150 cm of line.

**Step 2:**  
String one seed bead. Move it to the middle of the line. Secure it by tying two knots.

**Step 3:**  
Continue towards one end of the line using the same knotting technique. The seed beads should be tied about 1-2 cm from one another. Finish knotting about 30 cm from the end of the line.

**Step 4:**  
Tie the beads to the second half of the line.

**Step 5:**  
Decorate the item of your choice. Use the free ends to firmly attach the decoration.

You can adjust the length of the tied line as required.
