SMALL FLOWERS FROM SEED BEADS PRECIOSA TERRA INTENSIVE LINING

Sunny Flowers Necklace

PRECIOSA

Sunny Flowers Necklace

Using simple techniques, weave sparkling PRECIOSA Terra Intensive Lining rocaillies into bright little flowers that can be turned into a cute everyday necklace with a decorative detail at the back.

If you have a special occasion coming up this summer, why not create a matching bracelet and earrings to elevate your look!

Materials and tools:

PRECIOSA Rocaillies **R10A**
331 19 001; 10/0;
08A19 chocolate brown; 4 g

PRECIOSA Rocaillies **R10B**
331 19 001; 10/0;
08A86 yellow; 8 g

Beading thread to match your chosen beads; (Fireline 4lb crystal or a similar bonded thread is recommended)
Size 10 to 12 beading needles
Scissors
Gold chain; approximately 29 cm
Jump rings; size 5 mm; gold; 11x
Clasp; gold; 1x
Flat nose pliers; 2x
Wire cutters; 1x

Difficulty: ●●●●●

Technique: peyote and ladder stitch

Procedure:

Size: The finished necklace measures approximately 46 cm but can be made to measure.

Note: In the diagrams, beads with a black outline are the new beads being added, beads with no outline were added in previous steps.

To make the necklace:

Step 1

Thread your needle with 80 cm of thread and pick up 3x **R10A**. Leaving a 15 cm tail, pass through all the **R10A** again to form a triangle and then pass through the first **R10A** again. **Figure 1.**

1.

Step 2

Add 1x **R10A** between each **R10A** added in the previous step and complete the row by stepping up through the first **R10A** of this row. **Figure 2.**

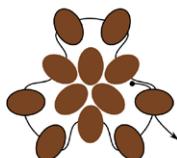

2.

Step 3

Add 2x **R10A** between each **R10A** added in the previous step and complete the row by stepping up through the first **R10A** only of this row. **Figure 3.** Pull your thread firmly as you work.

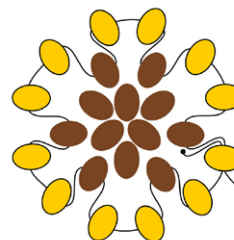

3.

Step 4

Pick up 2x **R10B** and pass your needle through the next **R10A** added in the previous step. Pick up 2x **R10B** and pass through the next **R10A** added in the previous step. Continue adding 2x **R10B** between each pair of **R10A** added in the previous step and between the **R10A** in each pair. Complete the row by stepping up through the first **R10B** only of this row. **Figure 4.**

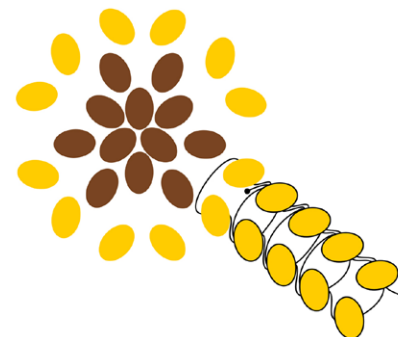

4.

Step 5

Working in ladder stitch, add 4 pairs of **R10B** to the first pair of **R10B** added in the previous step. **Figure 5a.**

5a.

Pick up 1x **R10B** and follow the thread path shown in **Figure 5b** to add the tip to the petal and to get into position to start the next petal.

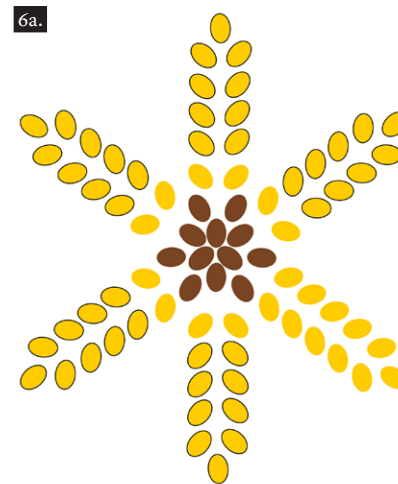

5b.

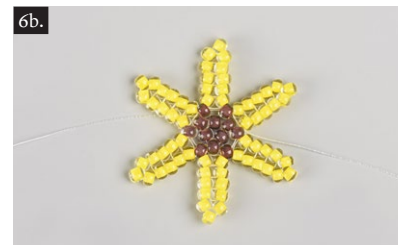

Step 6

Following the method shown in **Figure 5a** and **Figure 5b**, create 5 more petals adding 4 pairs of **R10B** to each pair of **R10B** added in step 4 and 1x **R10B** to the tip of each petal. **Figure 6a** and **6b.**

6a.

6b.

Step 7

Travel through your work to exit an **R10A** added in step 3 and add 1x **R10A** between each **R10A** in step 3. Complete the row by stepping up through the first **R10A** of this row. **Figure 7.**

7.

Step 8

Pick up 1x **R10A** and pass through the next **R10A** added in the previous row, through the next **R10A** added in step 3 and through the next **R10A** added in the previous row. Continuing in this way, add 3x **R10A** and complete the row by stepping up through the first **R10A** of this row. **Figure 8.**

8.

Step 9

Add 1x **R10A** between each **R10A** added in the previous step and complete the row by stepping up through the first **R10A** of this step. **Figure 9a.** Tie off and trim both the working thread and tail thread. **Figure 9b.**

9a.

9b.

Step 10

Following steps 1 – 9, make a total of 8 flowers.

To assemble the necklace:

Step 11

Using the 2 pairs of flat nose pliers, open a jump ring and pass it through an **R10B** at the tip of one of the petals on a flower and through the corresponding rocaillon on another flower before closing the jump ring. **Figure 11a.**

11a.

Using the same method, attach 7 flowers into a row, ensuring that all the flowers have the raised middle at the front and that each flower has 2 petals free either side of the jump ring. **Figure 11b.**

11b.

Step 12

Using the wire cutters, cut the chain into 2x lengths of 12 cm and 1x length of 5 cm.

Step 13

Using the flat nose pliers, open a jump ring and pass it through the **R10B** at the tip of an end flower and through the link at one end of one of the longer pieces of chain before closing it again. Using another jump ring, attach half of the clasp to the other end of the chain. **Figure 13a.**

13a.

Attach the second piece of longer chain to the tip of the flower at the other end of the necklace. Add the remaining half of the clasp to the other end together with the smaller piece of chain. Use the remaining jump ring to attach the final flower to the end of the smaller piece of chain. **Figure 13b.**

13b.

*To make the bracelet:*

Step 14

Following the steps above, make 5 – 6 flowers (depending on required size). Attach them into a row and then add half of the clasp to either end. If desired, attach an extra flower to one end as a decoration. **Figure 14.**

14.

*To make the earrings:*

Step 15

Following the steps above, make 6 flowers. Using jump rings, attach 3 of them into a row and then add an earring finding to the tip of an end flower. Repeat to make a second earring. **Figure 15.**

15.
