Technique: sewing

## Procedure:

## Step 1:

Cut off around 1 m of line. String $6 \mathrm{x} \mathbf{R}$ and 1x T on one end of the line (fig. no. 1a) and tie a double knot. Stitch through to the $\mathbf{T}$ and pass the line through the upper hole (fig. no. 1b).

Step 2:
Further string 1x B and 1x RO onto the line (fig. no. 2a), pass the line through the uppe hole of the B (fig. no. 2b), string 1x T (fig. no. 2c), then string $1 x$ B and $1 x$ RO, pass the line through the upper hole of the $\mathbf{B}$ and thread it through the $\mathbf{T}$ and the first B (fig. nos. 2d-2e). Thread the line through the RO and then once again through the $\mathbf{B}$ and the lower hole of the T (fig. nos. 2f-2g).

Step 3
Thread the line through the top hole of the $\mathbf{T}$ and sew on the group of $\mathbf{R 1 0}$ - $\mathbf{T}$ R10 (fig. no. 3a). Pass the line through the upper hole of the $\mathbf{T}$ (fig. no. 3b).

Step 4:
Repeat steps 2-3 until you reach the desired length of the bracelet (fig. no. 4a). Sew 6x R10 to the last T (fig. no. 4b). Use the connecting rings to attach the fastening (fig. no. 4c).
