- ca 30 mm eye pins; a thin chain
(10 links – 1.9 cm); earring hooks

- a 0.20 mm nylon line; a thin needle;
scissors; needle-nosed pliers; snipping
pliers

Difficulty:

Technique: square stitch, eye-pins

Procedure:

Step 1:

Prepare the materials for one earring.
Mix the EP together in a pile. You can string
any shade you want.

Step 2:

Use the square stitch during sewing.
String 1x EP and 1x R. Thread the line
through the EP one more time.
String 1x R and 1x EP. Thread the line
through the R one more time.
Continue stringing and connecting
(an EP with an R or an R with an EP).
Use a total of 8x EP and 8x R.
Tie off the end of the line.

Step 3:

Thread the line through the top EP nearest
to the knot. Thread it through the top R and
EP. End the threading in the same EP
as you started. Tighten.

Step 4:

String the next layer. Once again, use
the square stitch. String 1x R to the EP.
Thread the line through the EP one more
time. Thread the line through the R
between the EP. String 1x EP.
Thread the line through the R again.
Alternately add an EP and an R until you
have added 4x EP and 4x R.

Step 5:

Thread the line through the last added EP.
Connect the EP and R from the last layer.
Finish back in the last added EP. Tighten.
Sew the line in.

Create a loop in the line between the EP
and R. Thread the line through it twice and
tighten it. Thread the line through the R
and the EP. It should be possible to pull
the knot into the R. Thread the line through
the R and the EP. Tie another knot,
this time threaded through only once.
Thread the line through several more R
and EP. Cut it off.

Step 6:

Prepare 1.5 cm of chain. String 1xs PB,
4x R, the tube of the „Windmill“ and 1x PB
onto an eye pin. Shorten the protruding
wire to 1 cm. Grasp it between the points
of the needle-nosed pliers. Twist it around
the points. String a chain link before fully
closing the eye. Attach an earring hook to
the other end of the chain.
